

Application for Senior Android Developer Post.

Dear HR,

This is with reference to your job requirement on LinkedIn for the post of Android Developer. I truly believe that my qualifications and experience make me a perfect candidate for the job.

I'm working as a lead Android app developer at a prestigious company. During my tenure as a leading Android app developer, I visualize and execute on a client's project that results in client satisfaction. With 5 years of experience as an Android app developer, I have a deep understanding of the process. I am confident that I will be the right fit for the job. I want to change my current job to improve my knowledge, experience and development.

I've attached my CV to the email. Please take a look at it.

I hope to meet you and discuss this opportunity further.

Best regards,
Ravi Chauhan
